The College Survival Bundle is a series of sessions with a professional Learning Specialist to help students acquire and develop critical skills and study strategies such as: Time management, organization, note-taking, test-taking, and more. This is a fee-based service. College Survival sessions provide students an opportunity to talk about both academic and non-academic topics as they transition from high school to college life. The cost for a six-session bundle is $285; the cost for a semester bundle is $450. Additional individual sessions or bundles can be purchased as needed.

Appointments can begin as early as the first day of classes or once students attend classes and become familiar with their syllabi and assignments. Students will be contacted by their Learning Specialist over the summer with scheduling details.
