Supplemental Instruction Leader Job Description

Summary

As part of the Think Tank, the SI Program provides academic support for students who are enrolled in courses that have been challenging to students in the past. SI Leaders attend all lectures alongside the students who are enrolled in the course, so they always know what is happening in the class. In SI sessions, SI Leaders do not re-lecture or introduce new material. Rather, SI Leaders are trained to maximize active student involvement with the course material and to integrate how-to-learn with what-to-learn; as a result, students who attend SI sessions understand the material better.

This position reports to the Supplemental Instruction Assistant Coordinator.

The principal responsibilities of SI Leaders are as follows:

- Attend all lectures and model exemplary student behavior.
- Plan and facilitate three to four SI sessions each week.
